

PASSENGER BOAT - H38

GENERAL DESCRIPTION

H38 is made the most use of its hull area to accommodate up to 30 passengers. Along with two parallel engines 250 HP, H38's speed is not inferior to or even better than any high speed boat. This passenger boat is primarily used for commercial services, thus some parts can be customized, such as roof part, in order to meet customer's requirements.

SPECIFICATIONS

Length (Preliminary):	11.57 m
Beam (Preliminary):	2.81 m
Draft:	- m
Water occupation:	- ton
Passenger capacity:	30 pax
Max speed:	40 Knot(s)/hour
Engine capacity:	02 x 250 HP inboard engine
Driving force:	Propeller

ELECTRICAL DEVICES

Control system:	12V - DC + Control Panel
Generator:	Not Equipped

ONBOARD FACILITIES

Anchor:	01 x (Anchor 5kg + Manual Drag & Drop)
Bitt:	07 x (Bitt L = 250mm)
Handrails:	01 x (Handrails Stainless Steel SS316)
Baluster:	01 x (Baluster Stainles Steel SS316)
Roof cover:	01 x (Open cabin)

LIFESAVING - FIREFIGHTING DEVICES

Lifering:	02 x Set(s)
Life jacket:	10 x Pc(s)
Fire extinguisher:	02 x Fire extinguisher(s) 5kg
